

BiFolkal

PRODUCTIONS, INC

Bi-Folkal Kits Begin With Remembering.

Remembering is the first word of every kit title, and it's the first focus of every item we produce. Reminiscence programs can meet many needs: the need of the family to know and embrace its history; the need of older adults to put their lives in perspective; and the need of the community to understand and honor the accomplishments of earlier generations.

Bi-Folkal Kits Are Multi-Sensory.

All five senses trigger memories and transmit information. In any group program, the more senses you involve, the more people you involve. And the more you involve them.

Bi-Folkal Kit Titles Available at Jackson District Library

Bi-Folkal Kits will help you present programs designed to encourage reminiscence and celebrate the experiences of earlier times. Each kit includes a programming guide, and a video presentation along, with activities and materials that engage all five senses.
